

YR0007 / YR0007-A / YR0007-C

LCD DIGITAL THERMOMETERS

SPECIFICATION DATA

FEATURES

- Accurate product temperature measuring to 0.1 °C
- Easy to read LCD screen

APPLICATIONS

Designed for food temperature measuring in supermarkets, coldrooms, convenience stores and various other temperature sensitive applications.

SPECIFICATIONS

Operating Temperature	-40 to +70 °C
Battery Cell:	1.5V
Relative Humidity	10 to 95% non-condensing

ORDERING INFORMATION

YR0007

White LCD thermometer with 3m cable & sensor

YR0007-A

Black LCD thermometer with 3m cable & sensor

Y0007-C

Black LCD thermometer with 0.17m cable and sensor

GENERAL

The Honeywell YR0007 range of battery powered digital thermometers are a cost-effective and reliable way of measuring food product temperatures from -40 to +70 °C.

The digital thermometers can be mounted in a display canopy.

The attached probes are of single part design, incorporating a temperature sensitive element, sealed in metal can which is attached on to the connecting cable. This design maintains accurate performance under conditions of extreme humidity.
